

Sources of Scionwood of Pear Cultivars, Rootstocks, and Species in Agrucultural Experiment Stations in the United States and Canada

C. M. RITTER*

The following pear list was developed from the responses to a letter sent to all experiment stations in the United States and Canada. As will be noted, the United States Department of Agriculture maintains by far the largest pear collection in North America.

The author has changed the spell-

ing of an entry only where there was an obvious omission or transposition.

It is assumed that in all cases, except where subject to patent rights, or private agreement, reasonable amounts of propagating wood are available. The costs involved will vary according to the particular policy of the station involved.

List of Respondent Stations

The code following each entry will identify each station from which a list of pear cultivars was obtained:

AR—R. C. Rom, Department of Horticulture and Forestry, University of Arkansas, Fayetteville, Arkansas 72701.

BC1—M. C. J. Van Adrichem, Canada Department of Agriculture, Research Branch, R.R. #1, Prince George, British Columbia.

BC2—D. V. Fisher, Canada Department of Agriculture, Research Branch, Summerland, British Columbia.

CO—C. R. Ure, West Slope Branch Station, Orchard Mesa Unit, 3168 B $\frac{1}{2}$ Road, Grand Junction, Colorado 81501.

FL—R. H. Sharpe, Department of Fruit Corps, University of Florida, 32601.

MA—W. D. Weeks, Department of Plant and Soil Science, University of Massachusetts, Amherst, Massachusetts 01002.

MN—C. Stushnoff, Department of Horticultural Science, Fruit Breeding Farm, University of Minnesota, Rte. #1, Box 746, Excelsior, Minnesota 55331.

MT—H. Quamme, Canada Department of Agriculture, Research Branch, Morden, Manitoba, Canada.

ND—N. S. Holland, Department of Horticulture, North Dakota State University, Fargo, North Dakota 58102.

NM—D. T. Sullivan, Department of Horticulture, New Mexico State University, Las Cruces, New Mexico 88001.

NY—R. D. Way, Department of Pomology, New York State Agricultural Experiment Station, Geneva, New York 14456.

PA—C. M. Ritter, Department of Horticulture, Pennsylvania State University, University Park, Pennsylvania 16802.

US—H. J. Brooks, U. S. Plant Industry Station, Beltsville, Maryland 20705.

VE—B. R. Boyce, Department of Plant and Soil Science, University of Vermont, Burlington, Vermont 05401.

WI—E. C. Blodgett, State of Washington, Department of Agriculture, Irrigated Agricultural Research Station, Prosser, Washington 99350.

*Professor of Pomology, Pennsylvania State University; and Chairman, Scionwood Source List Committee, A.P.S.
