

6. Other agreements include:
 - a. Fifty cents (50¢) per bud stick charge for released material.
 - b. Fees and charges are subject to change without notice.
 - c. No material can enter the repository unless it is healthy or has been made so.
 - d. Material entering the repository becomes foundation stock.
 - e. Acceptance of proposed clones will be made by the IR-2 Executive Committee.
 - f. The agreement for any specific clone may be discontinued by:

ued by:

- (1) The patent holder or his assignee(s) by written request.
- (2) The IR-2 Committee upon notification of the other party. In either case, all the material of any discontinued clone will be destroyed.

The procedure described is now in effect and candidate patented clones may be proposed. These arrangements provide both opportunity and protection. The acceptance and use of the plan can be an important milestone in the progress of the fruit industry.

Sources of Scionwood of Pomological Species, Cultivars and Selections of Plums in Agricultural Experiment Stations of the United States and Canada

C. MARSHALL RITTER*

This list of sources of scionwood of plum species, cultivars and selections have been compiled by the author from the responses to a letter sent to all agricultural experiment stations of the United States and Canada.

The author has taken the liberty to change the spelling of any submitted entries when he definitely knew it to be incorrect. Otherwise, the spelling

was left exactly as submitted by the various respondents.

It is assumed that in every case but those which are subject to patent rights or private agreements, reasonable amounts of scionwood of any of the listed cultivars will be available for the cost of mailing, free of charge, or for a small fee, depending on the policy of the station involved.

List of Respondent Stations

Following each entry is a code consisting of two letters which is the key to those stations which have submitted lists, which were used in list which follows this one.

AR—Roy C. Rom, Dept. of Horticulture and Forestry, University of Arkansas, Fayetteville, Ark. 72701.

BC—D. V. Fisher, Research Station, Summerland, British Columbia, Canada.

CD—C. O. Hesse, Dept. of Pomology, University of California, Davis, California 95616.

CO—C. R. Ure, Orchard Mesa Unit, 3168 B ½ Road, Grand Junction, Colorado 81501.

FL—R. H. Sharpe, Dept. of Fruit Crops, University of Florida, 109A McCarty Hall, Gainesville, Florida 32601.

GE—E. F. Savage, Georgia Experiment Station, Experiment, Georgia 30212.

*Professor of Pomology, Pennsylvania State University, University Park, Penna.; and Chairman, Scionwood Source List Committee, A. P. S.

- IL—J. B. Mowry, Dept. of Horticulture, University of Illinois, Carbondale, Illinois 62901.
- KA—N. W. Miles, Dept. of Horticulture and Forestry, Kansas State University, Manhattan, Kansas 66502.
- KY—C. E. Chapin, Dept. of Horticulture, University of Kentucky, Lexington, Kentucky 40506.
- MA—W. D. Weeks, (deceased) (Dept. of Plant and Soil Sciences, University of Massachusetts, Amherst, Mass. 01002.
- MI—S. Johnston, South Haven Experiment Station, Michigan State University, South Haven, Michigan 49090.
- MN—C. Stushnoff, Dept. of Horticultural Science, University of Minnesota, Rte. #1, Box 746, Excelsior, Minnesota 55331.
- MT—H. Quamme, Canada Dept. of Agriculture, Research Station, Morden, Manitoba.
- MO—D. M. Erb, Huntley Branch, Huntley, Montana 50937 (and) D. R. Markley, Western Branch, Corvallis, Montana 59828 (and) H. N. Metcalf, Agric. Experiment Station, Bozeman, Montana 59716. All three stations are part of the Montana State University System.
- NC—F. E. Correll, Dept. of Horticultural Science, North Carolina State University, Raleigh, North Carolina 27607.
- NY—R. D. Way, Dept. of Pomology, New York Agricultural Experiment Station, Geneva, New York 14456.
- ND—N. S. Holland, Dept. of Horticulture, North Dakota State University, Fargo, North Dakota 58102.
- OR—Q. Zelinski, Dept. of Horticulture, Oregon State University, Corvallis, Oregon 97331.
- OH—G. A. Cahoon, Dept. of Horticulture, Ohio ARS and D Center, Wooster, Ohio 44691.
- OV—G. Tehrani and O. A. Bradt, Ontario Dept. of Agriculture and Food, Vineland Station, Ontario, Canada.
- PA—F. N. Hewetson, C. W. Haeseler and C. M. Ritter, Dept. of Horticulture, Pennsylvania State University, at Arendtsville, North East, and University Park, Pennsylvania, Respectively.
- SC—H. J. Sefick, Dept. of Horticulture, Clemson University, Clemson, South Carolina 29631.
- VA—G. D. Oberle, Dept. of Horticulture, Virginia Polytechnic Institute, Blacksburg, Virginia 24061.
- VE—B. R. Boyce, Dept. of Plant and Soil Science, University of Vermont, Burlington, Vermont 05401.
- WI—E. C. Blodgett, Dept. of Agriculture, Irrigated Agric. Res. and Ext. Center, Prosser, Washington 99350.
- WN—R. A. Norton, Northwestern Research and Extension Unit, Washington State University, Mount Vernon, Washington 98273.
- WP—T. K. Toyama, Irrigated Agr. Res. and Ext. Center, Prosser, Washington 99350.
